Fossil Identification Guide Turtle Shell:

The Complete Guide to Fossils & Fossil-collecting Steve Parker,2007 Fantastic Fossils Donald R.

Prothero,2020-03-31 Nothing fills us with a sense of wonder like fossils What looks at first like a simple rock is in fact a clue that reveals the staggering diversity of ancient environments the winding pathways of evolution and the majesty of a vanished earth But as much as one might daydream of digging a hole in the backyard and finding a Tyrannosaurus only a few places contain these buried treasures and when a scientist comes across a remnant of prehistoric life great care must be taken What do budding paleontologists need to know before starting their search In Fantastic Fossils Donald R Prothero offers an accessible entertaining and richly illustrated guide to the paleontologist s journey He details the best places to look for fossils the art of how to find them and how to classify the major types Prothero provides expert wisdom about typical fossils that an average person can hope to collect and how to hunt fossils responsibly and ethically He also explores the lessons that both common and rarer discoveries offer about paleontology and its history as well as what fossils can tell us about past climates and present climate change Captivating illustrations by the paleoartist Mary Persis Williams bring to life hundreds of important specimens Offering valuable lessons for armchair enthusiasts and paleontology students alike Fantastic Fossils is an essential companion for all readers who have ever dreamed of going in search of traces of a lost world
