Faith And Its Critics A Conversation:

Faith and Its Critics David Fergusson, 2011-03-03 Heralded as the exponents of a new atheism critics of religion are highly visible in today's media and include the household names of Richard Dawkins Daniel Dennett and Sam Harris David Fergusson explains their work in its historical perspective drawing comparisons with earlier forms of atheism Responding to the critics through conversations on the credibility of religious belief Darwinism morality fundamentalism and our approach to reading sacred texts he establishes a compelling case for the practical and theoretical validity of faith in the contemporary world An invitation to engage in a rich dialogue *Faith and Its Critics* supports an informed and constructive exchange of ideas rather than a contest between two sides of the debate Fergusson encourages faith communities to undertake patient engagement with their critics to acknowledge the place for change and development in their self understanding whilst resisting the reductive explanations of the new atheism *Religious Transhumanism and Its Critics* Arvin M. Gouw, Brian

Patrick Green, Ted Peters, 2022-03-10 Why do representatives of different religious traditions find the transhumanist vision of the future not only theologically compatible but even inspiring Transhumanism is a global movement seeking radical human enhancement The trans in transhumanism marks the transition from the present stage in human evolution into the future namely post human existence Containing chapters written by adherents to a variety of religious traditions *Religious Transhumanism and Its Critics* provides first hand testimony to the value of the transhumanist vision perceived by the religious mind In addition the contributors critique both secular and religious transhumanism in light of realistic science and commitment to social justice ***Locke's Religious Epistemology and Its Critics*** Nathan Rockwood, 2025-10-21 This book

offers a sustained defense of Locke's religious epistemology It puts Locke into conversation with leading figures in contemporary religious epistemology and shows that Locke's views are more plausible than many philosophers of religion and epistemologists realize Locke has become the villain in contemporary religious epistemology In recent years Locke has often been singled out and criticized for insisting that religious belief requires evidence and for failing to provide adequate evidence that would support rational belief in God and Christianity This book defends a broadly Lockean religious epistemology The author argues that we need evidence for religion and that there is good evidence supporting belief in God and Christianity He discusses Locke's views on the evidence from natural theology religious experience the testimony of miracles and scripture In each chapter the author contrasts Locke's view on a type of evidence with one of his critics Michael Bergmann David Hume Alvin Plantinga Richard Swinburne and Linda Zagzebski At the end of each chapter the author shows how a Bayesian analysis of evidence can support Locke's evidence for religious belief specifically a belief in Christianity This defense of Locke's position shows how his religious epistemology continues to be relevant in contemporary debates Locke's *Religious Epistemology and Its Critics* is a historically informed contribution to religious epistemology It will appeal to researchers and graduate students working in epistemology philosophy of religion and history of philosophy **Paul Tillich**

and Psychology Terry D. Cooper, 2006 Paul Tillich more than any other theologian of the twentieth century maintained an energetic dialogue with psychology and especially psychotherapy This book explores what Tillich's theology has to offer psychologists and others working in the field of mental health spiritual development and pastoral counseling Tillich's interaction with Carl Rogers Erich Fromm Rollo May and other famous psychologists became an important part of his thinking Tillich frequently pushed psychologists to see the underlying philosophical assumptions of their work This investigation of the underpinnings of psychotherapy then encouraged psychotherapists to become more aware of the ultimate questions about meaning purpose and ethics that informed their work Perhaps the greatest contribution this book offers is a careful narrative and analysis of the meetings of the New York Psychology Group which involved such figures as Tillich Fromm May Rogers Seward Hiltner Ruth Benedict and David Roberts to name just a few This important group which met from 1941 to 1945 dealt with issues that are very much with us today such as whether faith can be psychologically explained the meaning of transcendence the relationship between psychotherapy and ethics the appropriateness of self love and whether human love is parallel with Divine love

The Art of Coexistence Salih Yucel, Ismail Albayrak, 2015-04-07 The global threat of war terrorism the increased gap between poor and rich famine malnutrition global warming and pollution and many other social and cultural problems pose a real challenge for present citizens of the globe Intellectuals and politicians take these challenges as their primary concerns Despite the existence of some pessimists there are a number of initiatives working for the common good and expending great effort to solve these problems The Hizmet Gulen Movement is one of the most influential initiatives that should be taken into consideration in this context Fethullah Gulen is a Turkish Muslim scholar whose ideas have inspired and influenced many Turkish intellectuals educators students businessmen politicians and journalists inside and outside Turkey to establish schools educational and intercultural centers and humanitarian aid organizations in more than one hundred fifty countries Yucel and Albayrak cover the Hizmet Movement under the leadership of Fethullah Gulen from various perspectives in order to shed lights on current discussions *Biblical Criticism* John Augustus William Haas, 1903
