Faith Without Fear Unresolved Issues In Modern Orthodoxy:

Faith Without Fear Michael J. Harris, 2016 Faith without Fear examines key unresolved philosophical theological and ideological issues in the Modern Orthodox Jewish world In addition to topics such as the status and role of women in Judaism and the challenge to traditional faith posed by modern biblical scholarship Harris also explores issues which have received little scholarly attention such as Modern Orthodoxy's relationship with Jewish mysticism its hopes for the messianic era and the fundamental nature and commitments of Modern Orthodoxy Back cover

Nietzsche, Soloveitchik, and Contemporary Jewish Philosophy Daniel Rynhold, Michael J. Harris, 2018-06-28 What does one do as a Jewish philosopher if one is convinced by much of the Nietzschean critique of religion Is there a contemporary Jewish philosophical theology that can convince in a post metaphysical age The argument of this book is that Rabbi Joseph Soloveitchik 1903 1993 the leading twentieth century exponent of Modern Orthodoxy presents an interpretation of halakhic Judaism grounded in traditional sources that brings a life affirming Nietzschean sensibility to the religious life Soloveitchik develops a form of Judaism replete with key Nietzschean ideas which parries Nietzsche's critique by partially absorbing it This original study of Soloveitchik's philosophy highlights his unique contribution to Jewish thought for students and scholars in Jewish studies while also revealing his wider significance for those working more broadly in fields such as philosophy and religious studies

Louis Jacobs and the Quest for a Contemporary Jewish Theology Miri Freud-Kandel, 2023-10-15 For Louis Jacobs the quest the process of engaging with and thinking about Jewish faith was a lifelong pursuit He offered a model in the 1960s a period characterized by general religious crisis of an observant committed but intellectually curious Judaism that empowered individual seekers to address challenges to faith In Orthodox Judaism at the time a battle was under way for religious control Generating a widespread controversy in British Jewry known as the Jacobs Affair his thought offers a lens for examining the trajectory of Orthodoxy In a contemporary context marked by the changing cultural and intellectual concerns of a post secular age the focus of some of these debates over religious control has shifted Yet Jacobs emphasis on a personal quest is as relevant as ever perhaps more so This first book length analysis of his theology unpacks the building blocks of his thought It argues that despite its particularities and limitations his approach can provide a powerful model for contemporary religious seekers in the context of a growing impetus away from established denominationally bound forms of religion Many orthodox believers across a range of faiths continue to prefer the certainty of unquestionable religious truth claims rather than pursuing a subjective search for religious meaning For those seeking alternative models for the contemporary Jewish quest a reconsideration of Jacobs theology can offer valuable tools

Covenant and World Religions Alon Goshen-Gottstein, 2023-06-06 Finalist for The Rabbi Sacks Book Prize 2023 A new paradigm for relations between religions one of acceptance and collaboration requires not only a willingness to move beyond a tradition of hostility and competition but also significant theological rethinking Within Jewish Orthodoxy there have been very few voices that

have advanced and justified a vision of other faiths in this light to this day the reigning paradigm is one of practical collaboration while avoiding theologically based engagement or reflection Two of the most important Orthodox Jewish voices advocating change have been those of Irving Yitz Greenberg and Jonathan Sacks This book presents the theological moral and social views of these two leading rabbis It focuses on the significance of covenant for both and how they adapt this concept to enable the development of a Jewish view of other religions In considering how they may have influenced each other it also studies the limitations and internal contradictions that characterize their work as they attempt to point the way forward in a spirit of dialogue to continuing theological reflection on Judaism's approach to world religions

The People, the Torah, the God Jerome Yehuda Gellman, 2023-05-16 Continuing the author's commitment to neo traditional constructive Jewish theology this book is a sequel to Gellman's trilogy of constructive Jewish theology with Academic Studies Press The book treats three topics which revise and clarify the author's views in light of critics and further thought The book includes a new concept of the Jews as God's Chosen People for our times a reply to an argument for the reliability of Torah history and an approach not a solution to the problem of evil for troubled believers and want to be believers

The Biblical World Katharine J. Dell, 2021-07-29 The Biblical World is a comprehensive guide to the contents historical settings and social context of the Bible This new edition is updated with several new chapters as well as a new section on biblical interpretation Contributions from leading scholars in the field present wide ranging views not just of biblical materials and their literary and linguistic context but also of the social institutions history and archaeology and religious concepts New chapters cover topics such as the priesthood and festivals creation and covenant ethics and family life while a new section on biblical interpretation discusses Jewish and Christian bible translation and key thematic emphases and modern reader response and cultural approaches This revised edition of The Biblical World offers an up to date and thorough survey of the Bible and its world and will continue to be an invaluable resource for students and scholars of the Hebrew Bible and New Testament and their history and interpretation as well as anyone working on the societies religions and political and cultural institutions that created and influenced these texts

Motive, 1949 *Perspectives*, 1991 *Nietzsche, Soloveitchik and Contemporary Jewish Philosophy* Daniel Rynhold, Michael J. Harris, 2018-06-28 Presents Soloveitchik's philosophy as a conceptual response to Nietzsche's critique of religion that brings Nietzsche's life affirming sensibility to halakhic Judaism
