In doing the interview, I also began to understand other aspects of how his father might be expected to be viewed and remembered after 9/11, as the son of the first American President to die in office. *The Death of George W. Bush* is about his father's life, *George W. Bush* is a tribute to his father, yet it is also his son's response to his father's official funeral. Bush's words provide the history of his father's death in 1962 and his father's life through the death of his son. In writing the obituary for his father, Bush is not only reflecting on his father's life with "historical and personal" significance, but also expressing his grief and his desire to leave a legacy to his father. In his father's obituary, there is a tribute to his father's "extraordinary political spirit" and his sense of duty. *The Death of George W.
