Wrongful Convictions and Miscarriages of Justice C. Ronald Huff, Martin

Killias, 2013-03-05 This innovative work builds on Huff and Killias' earlier publication (2008) but is broader and more thoroughly comparative in a number of important ways. 1 while focusing heavily on wrongful convictions, it places the subject of wrongful convictions in the broader contextual framework of miscarriages of justice and provides discussions of different types of miscarriages of justice that have not previously received much scholarly attention by criminologists. 2 it addresses in much greater detail the questions of how and how often wrongful convictions occur. 3 it provides more in-depth consideration of the role of forensic science in helping produce wrongful convictions and in helping free those who have been wrongfully convicted. 4 it offers new insights into the origins and current progress of the innocence movement as well as the challenges that await the exonerated when they return to free society. 5 it assesses the impact of the use of alternatives to trials, especially plea bargains in the U.S. and summary proceedings and penal orders in Europe, in producing wrongful convictions. 6 it considers how the U.S. and Canada have responded to 9/11 and the increased threat of terrorism by enacting legislation and adopting policies that may exacerbate the problem of wrongful conviction. 7 it provides in-depth considerations of two topics related to wrongful conviction: voluntary false confessions and convictions which, although technically not wrongful since they are based on law violations, represent another type of miscarriage of justice since they are due solely to unjust laws resulting from political repression.

Overturning Wrongful Convictions Elizabeth A. Murray, PhD, 2015-01-01

Imagine being convicted of a crime you didn't commit and spending years behind bars. Since 1989, more than 1,400 Americans who experienced this injustice have been exonerated. Some of the people who have won their freedom include Ronald Cotton, who was falsely convicted of raping a college student; Nicole Harris, who was unjustly imprisoned for the death of her son; and intellectually disabled Earl Washington Jr., who was unfairly sentenced to death for the rape and murder of a young mother. Wrongful convictions shatter lives and harm society by allowing real perpetrators to potentially commit additional crimes. How can such injustices happen? *Overturning Wrongful Convictions* recounts stories of individuals who served someone else's prison time due to mistaken eyewitness identification, police misconduct, faulty forensic science, poor legal representation,

courtroom mistakes and other factors You ll learn about the legal processes that can lead to unjust convictions and about the Innocence Project and other organizations dedicated to righting these wrongs The sciences including psychology criminology police science and forensic science work hand in hand with the legal system to prosecute and punish those people whose actions break laws Those same sciences can also be used to free people who have been wrongfully convicted As a society can we learn from past mistakes to avoid more unjust convictions
