*Fallen Languages* Robert Markley, 1993 Traces the importance of theology to the crisis of representation in English natural philosophy as documented by the writings of Robert Boyle Isaac Newton and their contemporaries Finds that the tension between observed experimental phenomena and established religious and political thought led them to devise innovative theories Annotation copyright by Book News Inc Portland OR *The Far East and the English Imagination, 1600-1730* Robert Markley, 2006-01-12 A 2006 investigation of the idea of the powerful Asian empires in the works of Milton Dryden Defoe and Swift **The Oxford Handbook of Daniel Defoe** Nicholas Seager, J. A. Downie, 2024-02-29 Across his vast oeuvre which includes books pamphlets and periodicals Daniel Defoe commented on virtually every development and issue of his lifetime a turbulent and transformative period in British and global history This Handbook offers the most comprehensive overview available of his life times writings and reception *George Berkeley and Romanticism* Chris Townsend, 2022 The first full length study of George Berkeley s influence on Romantic period thought Visual Rhetoric and Early Modern English Literature Katherine Acheson, 2013 Considering the variety of charts diagrams and other kinds of images with which early modern printed books are copiously illustrated this volume interrogates how visual rhetoric affected verbal expression The genres of illustration considered include military strategy and tactics garden design instrumentation Bibles scientific schema drawing instruction natural history comparative anatomy and Aesop s Fables The book develops novel methods of using printed images as evidence in the interpretation of the rich strange and beautiful literature of early modern England Culture and Authority in the Baroque Massimo Ciavolella, Patrick Coleman, Professor of French Patrick Coleman, 2005-01-01 Culture and Authority in the Baroque explores the baroque across a wide range of disciplines from poetics to politics to the rituals of musical dramatic and religious performance **The Rhetoric of Empiricism** Jules David Law, 1993 Empiricism favors the visual over the verbal the literal over the rhetorical the static over the temporal This is the standard charge leveled by literary theorists and writers It is Jules David Law demonstrates remarkably misguided His ambitious and challenging book explores the interplay of language and visual perception at the heart of empiricism A re evaluation of the British empiricist tradition from the perspective of contemporary literary theory it also offers a sustained challenge to theory itself In failing to grasp the issues confronting early empiricist writers or to be fully aware of their rhetorical strategies Law says theory has defined itself needlessly in opposition to empiricism Description from <http://www.booktopia.com.au> April 19 2012 Representing Public Credit Natalie Roxburgh, 2015-12-22 Public credit was controversial in seventeenth and eighteenth century England It entailed new ways of thinking about the individual in relation to the State and was for many reasons a site of cultural negotiation and debate At the same time it required commitment from participants in order to function Some of the debates relating to public credit whose success was tied up in the way it was represented find their way into contemporary fiction in particular the eighteenth century novel This book reads eighteenth

century fiction alongside works of political economy in order to offer a new perspective on credible commitment and the rise of a credit economy facilitated by public credit Works by authors such as Daniel Defoe Samuel Richardson and Frances Burney are explored alongside lesser known fictional texts including some early it narratives and novels of sensibility to give a fully rounded view of the perception of public credit within England and its wider cultural and social implications Strategies for representing public credit the book argues can be seen as contributing to the development of the English novel a type of fiction whose emphasis on the individual can also be read as helping to produce a certain type of person the modern financial subject This interdisciplinary book draws from economic history and literary cultural studies in order to make connections between the development of finance and an important facet of modern Western culture the novel **The Eighteenth**

**Century**, 2007 **The Writing of Theatre History in Early Restoration England** Robert Bennett Shimko, 2006 *Fault Lines and Controversies in the Study of Seventeenth-century English Literature* Claude J. Summers, Ted-Larry Pebworth, 2002

Written by various experts in the field this volume of thirteen original essays explores some of the most significant theoretical and practical fault lines and controversies in seventeenth century English literature The turn into the twenty first century is an appropriate time to take stock of the state of the field and as part of that stock taking the need arises to assess both where literary study of the early modern period has been and where it might desirably go Hence many of the essays in this collection look both backward and forward They chart the changes in the field over the past half century while also looking forward to more change in the future Some of the essays collected here explore the points of friction vulnerability and division that have emerged in literary study of all periods at the end of the twentieth century such as theory gender sexuality race and religion Others are more narrowly focused on fault lines and controversies peculiar to the study of Renaissance and seventeenth century literature At the same time nearly all of these essays examine and illuminate particular works of literature They engage theory but they also illustrate their points concretely by enacting practical criticism of works by authors ranging from Bacon to Milton What emerges from the collection is a sense of the field s dynamism and vitality The dominant mood of the essays is a cautious optimism and while the contributors are by no means complacent they all share a belief that the fault lines that have emerged in the field are variously and valuably instructive By exposing these fault lines the essayists seek a means of acknowledging differences and disagreements without covering them up They also constructively suggest ways of addressing the issues as a prerequisite to bridging them By broaching some of the most significant questions that animate the study of early modern literature at the turn into a new century this volume will be of great value to any student or scholar of seventeenth century literature **Studies in Eighteenth-century Culture**

Timothy Erwin, Julie Candler Hayes, 1998 This volume presents a group of essays that evoke broad contexts and future avenues for work in the field of 18th century studies The contributors take up the question of identity not as a fixed stable property whose boundaries may be confidently mapped but rather as a complex and unpredictable process navigating

different discourses and modes of social insertion They address issues that involve national linguistic and cultural affiliations or call into question the relation of gender performance to literary persona *Literature and the Disciplines, 1700 -1820* Robin Valenza,2003 **Early Science and Medicine** ,1998 A journal for the study of science technology and medicine in the pre modern period *The Scriblerian and the Kit-Cats* ,1996 **The Works of Thomas Traherne II** Thomas Traherne,2005 Pathetical Contemplation of the Mercies of GOD in Several Most Devout and Sublime Thanksgivings for the Same first printed in 1699 and commonly referred to as the Thanksgivings Both are works of universal appeal learning and insight that show Traherne to be engaged in the central issues of his age Printed in the Appendix is Meditations on the Six Days of the Creation a work of questionable attribution to Traherne as well as William T Brooke s account of the discovery of Traherne s manuscripts The Story of the Traherne MSS By their finder held at the Bodleian Library Oxford and published for the first time Book Jacket **The Eighteenth Century** Kevin L Cope,Robert C Leitz,2003 This reference work provides bibliographic details for students of 18th century studies **Milton's Prudent Ambiguities** Martin Kuester,2009-03-16 This new reading of Paradise Lost concentrates on the analysis of linguistic concepts underlying Milton s epic and then builds on those concepts with a fresh interpretation that considers the role that Raphael plays in it Relying on a narrative model that was already well known in the seventeenth century and was baptized godgame by the twentieth century British novelist John Fowles it reinterprets the role of the archangel as that of a tool in the great plan of Milton s Father s ironic teaching This book complements a basically linguistic approach to Milton s poetry and prose with concepts such as that of retraction adopted from heretical Milton critics as Saurat Hill and Empson *Milton and the Preaching Arts* Jameela Lares,2001 Of interest to both literary scholars and scholars of church history and homiletics Milton and the Preaching Arts also surveys sermons and sermon manuals Bible commentaries and works of religious controversy on the issues of English church government and scriptural style BOOK JACKET **The Age of Minerva: Cognitive discontinuities in eighteenth-century thought** Paul Ilie,1995
