The papers in this volume stem from the following meetings: Workshop on Character Computing C2 Workshop on Deep Learning Applications DeLA Workshop on Decision Support Recommendation and Persuasion in Artificial Intelligence DeRePAI Workshop on Multi-agent based Applications for Modern Energy Markets Smart Grids and Future Power Systems MASGES Workshop on Smart Cities and Intelligent Agents SCIA. **Workshop Proceedings of the 9th International Conference on Intelligent Environments** J.A. Botía, D. Charitos, 2013-07-26 Intelligent Environments (IE) play an increasingly important role in many areas of our lives including education, healthcare, and the domestic environment. The term refers to physical spaces incorporating pervasive computing technology used to achieve specific goals for the user, the environment, or both. This book presents the proceedings of the workshops of the 9th International Conference on Intelligent Environments IE 13 held in Athens, Greece, in July 2013. The workshops, which were presented in the context of this conference, range from regular lectures to practical sessions. They provide a forum for scientists, researchers, and engineers from both industry and academia to engage in discussions on newly emerging or rapidly evolving topics in the field. Topics covered in the workshops include artificial intelligence techniques for ambient intelligence applications of affective computing in intelligent environments, smart offices and other workplaces, intelligent environment technology in education for creative learning, museums as intelligent environments, the application of intelligent environment technologies in the urban context for creating more sociable intelligent cities, and for constructing urban intelligence. IE can enrich user experience, better manage the environment's resources, and increase user awareness of that environment. This book will be of interest to all those whose work involves the application of intelligent environments. Handbook of Research on Big Data Storage and Visualization Techniques Segall, Richard S., Cook, Jeffrey S., 2018-01-05 The digital age has presented an exponential growth in the amount of data available to individuals looking to draw conclusions based on given or collected information across industries. Challenges associated with the analysis, security, sharing, storage, and visualization of large and complex data sets continue to plague data scientists and analysts alike as traditional data processing applications struggle to adequately manage big data.

The Handbook of Research on Big Data Storage and Visualization Techniques is a critical scholarly resource that explores big data analytics and technologies and their role in developing a broad understanding of issues pertaining to the use of big data in multidisciplinary fields. Featuring coverage on a broad range of topics such as architecture patterns, programming systems, and computational energy, this publication is geared towards professionals, researchers, and students seeking current research and application topics on the subject. RoboCup 2017: Robot World Cup XXI Hidehisa Akiyama, Oliver Obst, Claude Sammut, Flavio Tonidandel, 2018-09-12 This book includes the post conference proceedings of the 21st RoboCup International Symposium held in Nagoya, Japan, in September 2017. The 33 full revised papers and 9 papers from the winning teams presented were carefully reviewed and selected from 58 submissions. The papers are organized on topical sections on Robotics, Artificial intelligence, Environment perception, State estimation, and much more. Health Informatics Vision: From Data via Information to Knowledge Arie Hasman, Aikaterini Kolokathi, Mowafa S. Househ, Joseph Liaskos, 2019-08-15 The latest developments in data informatics and technology continue to enable health professionals and informaticians to improve healthcare for the benefit of patients everywhere. This book presents full papers from ICIMTH 2019, the 17th International Conference on Informatics Management and Technology in Healthcare, held in Athens, Greece, from 5 to 7 July 2019. Of the 150 submissions received, 95 were selected for presentation at the conference following review and are included here. The conference focused on increasing and improving knowledge of healthcare applications spanning the entire spectrum from clinical and health informatics to public health informatics as applied in the healthcare domain. The field of biomedical and health informatics is examined in a very broad framework, presenting the research and application outcomes of informatics from cell to population and exploring a number of technologies such as imaging sensors and biomedical equipment together with management and organizational aspects including legal and social issues. Setting research priorities in health informatics is also addressed. Providing an overview of the latest developments in health informatics, the book will be of interest to all those working in the field. *Case-Based Reasoning Research and Development* Juan A. Recio-Garcia, Mauricio G. Orozco-del-Castillo, Derek Bridge, 2024-06-23 This book constitutes the refereed proceedings of the 32nd International Conference on Case Based Reasoning Research and Development ICCBR 2024, held in Merida, Mexico, during July 1-4, 2024. The 29 full papers included in this book were carefully reviewed and selected from 91 submissions. They cover a wide range of CBR topics of interest both to practitioners and researchers, including improvements to the CBR methodology itself, case representation, similarity, retrieval, adaptation, etc., synergies with other Artificial Intelligence topics such as Explainable AI and Large Language Models, and finally a whole catalog of applications to different domains such as health care, education, and legislation. **Technology for Smart Futures** Mohammad Dastbaz, Hamid Arabnia, Babak Akhgar, 2017-09-05 This book explores the nexus of Sustainability and Information Communication Technologies that are rapidly changing the way we live, learn, and do business. The monumental amount of energy required to power the Zetta byte of data traveling across the globe is

billions of computers and mobile phones daily cannot be overstated This ground breaking reference examines the possibility that our evolving technologies may enable us to mitigate our global energy crisis rather than adding to it By connecting concepts and trends such as smart homes big data and the internet of things with their applications to sustainability the authors suggest that emerging and ubiquitous technologies embedded in our daily lives may rightfully be considered as enabling solutions for our future sustainable development

jBPM Developer Guide

Mauricio Salatino, 2009 This book is a

complete developer's guide to working with jBPM in a J2EE enterprise environment. It is packed with examples of implementations that will provide you with all the experience needed in real life implementations. Extensive discussions about how the framework is implemented internally will contribute to creating a robust knowledge of when and how your projects will include this framework. This book is mainly targeted at Java developers and Java architects who need to have a deep understanding of how frameworks behave in real life implementations. The book assumes that you know the Java Language well and also know some widely used frameworks such as Hibernate and Log4J. You should also know the basics of relational databases and the Eclipse IDE. A brief introduction to Maven2 is included in this book but extra experience might be needed for more advanced usages.

JBPM 6 Developer Guide Mariano Nicolas De Maio, 2014-08-15. If you are a Java developer or architect who needs to have a better understanding of how Business Process Management frameworks behave in real life implementations, this book is for you. This book assumes that you know the Java language well and are familiar with some widely used frameworks such as Hibernate. You should also know the basics of relational databases and Maven based applications.

JBoss Drools Business Rules Paul Browne, 2009. This book takes a practical approach with step by step instructions. It doesn't hesitate to talk about the technologies but takes time to explain them to an Excel power user level. There is a good use of graphics and code where necessary. If you are a business analyst, somebody involved with enterprise IT but at a high level understanding problems and planning solutions rather than coding in depth implementations, then this book is for you. If you are a business user who needs to write rules or a technical person who needs to support rules, this book is for you. If you are looking for an introduction to rule engine technology, this book will satisfy your needs. If you are a business user and want to write rules using Guvnor JBoss IDE, this book will be suitable for you. This book will also suit your need if you are a business user and want to understand what Drools can do and how it works but would rather leave the implementation to a developer.
