Dynamics And Indeterminism In Developmental And Social Processes:

Dynamics and Indeterminism in Developmental and Social Processes Alan Fogel, Maria C. D. P. Lyra, Jaan Valsiner, 1997
First Published in 1997 Routledge is an imprint of Taylor Francis an informa company *Change Processes in Relationships*
Alan Fogel, Andrea Garvey, Hui-Chin Hsu, Delisa West-Stroming, 2006-05-25 Just as each person develops from infancy to adulthood all interpersonal relationships have a life history that encompasses the changes in how people communicate with each other This book is about how a relationship transforms itself from one pattern of communication to another The authors present a unique research method called relational historical research based on advances in dynamic systems theory in developmental psychology and qualitative methods in life history research It rests on three premises that the developing relationship not the individual is the unit of analysis that change emerges from but is not entirely constrained by the patterns of the past and that the developmental process is best revealed by making frequent observations within a particular case before during and after a key developmental transition Looking specifically at the mother infant relationship this is a compelling piece of research that will appeal to an international audience of intellectuals and practitioners Culture and Human Development Jaan Valsiner, 2000-01-19 This major new textbook by Jaan Valsiner focuses on the interface between cultural psychology and developmental psychology Intended for students from undergraduate level upwards the book provides a wide ranging overview of the cultural perspective on human development with illustrations from pre natal development to adulthood A key feature is the broad coverage of theoretical and methodological issues which have relevance to this truly interdisciplinary field of enquiry encompassing developmental psychology cultural anthropology and comparative sociology The text is organized into five coherent parts Part 1 Developmental theory and methodology Part 2 Analysis of environments for human development Part 3 Cultural organization of pregnancy and infancy Part 4 Early childhood development and Part 5 Entering the world of activities culturally ruled **Current Issues in Developmental Psychology** A.F. Kalverboer, M.L. Genta, J.B. Hopkins, 2012-12-06 This volume contains a number of contributions which concern basic issues in the field of brain behavioural development in the human especially with regard to the young child They have been written by distinguished scientists active in this field who have all been participating in an Erasmus teachers exchange program entitled Biopsychology of Development ICP NL 3026 14 This volume is the product of this cooperation The book is intended for scientists in this and related fields as well as for graduate students and advanced undergraduates as a means of updating their knowledge about human brain behaviour development It offers a contemporary review methodologically and theoretically of some basic issues in early human brain behaviour development Attention is paid to normal development and also to deviance as exemplified by discussions on child abuse and on early development of preterms and children of deaf mothers For the title of the book we have chosen for the term Developmental Psychology with as a subtitle biopsychological perspectives in order to express our interest in the basic requirements in the organism for an optimal adaptation during

ontogeny as well as in the mechanisms underlying maladaptive behaviour The term may indicate that we are not just focusing on higher brain functions which would be suggested by the term Developmental Neuropsychology Further it is meant to express our interest in the integrated study of normal and deviant development without a particular focus on abnormality which would be suggested by the term Developmental Psychopathology

Dialogicality in Development Ingrid E. Josephs, 2003-09-30 The crucial nature of developmental theory is the question of relationship between cultural and personal facets of human development Dialogue is a useful concept to specify this relationship from a process oriented perspective In its broadest sense the notion of dialogue entails the interaction between at least two entities persons meanings perspectives out of which novelty can but need not emerge Thus dialogic models are open for developmental questions These issues are examined in this the first volume in which the increasingly popular metaphor of dialogue is systematically applied to developmental issues Dialogue is a multilevel concept and can be understood 1 as a real exchange between two interacting persons 2 as the interaction between culture at large e g stories and narratives and the interacting developing person and 3 as a metaphor for developmental processes in general In the first part of this international volume the concept of dialogue is elaborated by researchers from different disciplines The focus of the second section is on dialogic models in the area of self development The third deals with the dialogical co development of person and culture
