Refugee Mental Health Stephan Zipfel, Monique C.

Pfaltz, Ulrich Schnyder, 2019-06-18 The focus of this Research Topic is on research that aims to understand the relationships between pre migration stressors and potentially traumatic experiences post migration living difficulties and mental health in refugees of both sexes throughout the lifespan We know very little about how concepts of assessing and treating mental health conditions actually work when applied to traumatized refugee populations from different cultures e.g. the Yazidis

people from northern Iraq Moreover there is also a great need to better understand the relationship between mental health and refugees integration in their host countries societies acquiring language skills fitness for work economic independence private life etc This Research Topic will also focus on the issue of culture the extent to which concepts of mental health care can translate and be implemented in different social economic and cultural settings around the world **Biological**
