

About this quick guide

Validity

This quick guide describes the product.

Product designation

Terminal 96 00

Product ID

9600-K6

Item number

04079601

Date of manufacture

From July 2017

Target group

This quick guide should only be used by skilled persons trained by the manufacturer.

Safety instructions

Designated use

The product is only intended for use as described in chapter "Product description". Any use beyond that is considered contrary to its designated use. The manufacturer cannot be held liable for damage resulting from such use.

Staff qualification

The actions described in this quick start guide must only be carried out by skilled persons in accordance with EN 62368-1.

Skilled person is the designation for people who have the appropriate technical training and experience in setting up the equipment. Skilled persons are expected to use their training and experience to identify any risks to themselves and others that may arise while carrying out these activities, and to minimise these risks as far as possible. It is the skilled person's responsibility to ensure that the conditions stated by the manufacturer and the applicable regulations and standards are complied with when carrying out these actions.

Assembly and installation

The product should only be installed in locations which fulfil the environmental and technical conditions specified by the manufacturer.

The manufacturer is not liable for damage arising due to improper handling or incorrect installation.

Environmental protection

It is prohibited to dispose of the device in your domestic waste.

Used devices contain valuable materials that should be recycled.

Properly dispose of used devices.

Product description

The terminal 96 00 can be used for time and attendance, access control of an individual door and as CardLink update terminal.

The B-Client terminal software makes the device compatible in terms of data records with its predecessor series B-web and B-net, allowing it to be connected to the host system via UDP using the communication software B-COMM. Connecting it to HTTP/HTTPS-based applications, such as b-comm ERPS, b+ or EACM, is also possible.

The operating system used of the terminal 96 00 is 'Android'. This allows applications, so-called apps, to be used flexibly at the terminal. The system can be expanded at any time to make it suitable for a wide range of tasks or also be supplemented by apps specifically developed for customer requirements.

To display information, the terminal has a graphic 4" TFT colour display with a resolution of 480 x 800 pixels. Located above the display is a capacitive input field, which is operated by touching the glass front.

The person-related data is recorded by a contactless RFID reader.

The communication with the superior system takes place via Ethernet. Alternatively and optionally, communication can also take place via UMTS or WLAN.

The terminal is supplied with power via PoE (Power over Ethernet).

Device structure

The product consists of the terminal housing (1) and the mounting plate (2).

The mounting plate (2) is the wall-mounting element of the device. The terminal (1) is hung into the mounting plate (2) and secured with two screws (4) from below.

The network cable is led to the terminal from the rear. The network connection is located on the rear of the terminal.

The product has a magnetic sabotage contact (3). The terminal software uses it to detect when the housing is removed from the mounting plate and generates an alarm record.
