Redlining Culture Richard Jean So, 2020-12-15 The canon of postwar American fiction has changed over the past few decades to include far more writers of color It would appear that we are making progress recovering marginalized voices and including those who were for far too long ignored However is this celebratory narrative borne out in the data Richard Jean So draws on big data literary history and close readings to offer an unprecedented analysis of racial inequality in American publishing that reveals the persistence of an extreme bias toward white authors In fact a defining feature of the publishing industry is its vast whiteness which has denied nonwhite authors especially black writers the coveted resources of publishing reviews prizes and sales with profound effects on the language form and content of the postwar novel Rather than seeing the postwar period as the era of multiculturalism So argues that we should understand it as the invention of a new form of racial inequality one that continues to shape the arts and literature today Interweaving data analysis of large scale patterns with a consideration of Toni Morrison's career as an editor at Random House and readings of individual works by Octavia Butler Henry Dumas Amy Tan and others So develops a form of criticism that brings together qualitative and quantitative approaches to the study of literature A vital and provocative work for American literary studies critical race studies and the digital humanities Redlining

Culture shows the importance of data and computational methods for understanding and challenging racial inequality **On Video Games** Soraya Murray, 2017-10-30 Today over half of all American households own a dedicated game console and gaming industry profits trump those of the film industry worldwide In this book Soraya Murray moves past the technical discussions of games and offers a fresh and incisive look at their cultural dimensions She critically explores blockbusters like *The Last of Us* *Metal Gear Solid* *Spec Ops* *The Line* *Tomb Raider* and *Assassin's Creed* to show how they are deeply entangled with American ideological positions and contemporary political cultural and economic conflicts As quintessential forms of visual material in the twenty first century mainstream games both mirror and spur larger societal fears hopes and dreams and even address complex struggles for recognition This book examines both their elaborately constructed characters and densely layered worlds whose social and environmental landscapes reflect ideas about gender race globalisation and urban life In this emerging field of study Murray provides novel theoretical approaches to discussing games and playable media as culture Demonstrating that games are at the frontline of power relations she reimagines how we see them and more importantly how we understand them European Studies Menno Spiering, 2001 **Tourism Recreation Research**, 2006 A Perfect Union? Cory Albertson, 2017-11-23 On June 26 2015 Supreme Court Justice Anthony Kennedy declared same sex marriage is so ordered across the United States The day will no doubt be remembered as a landmark shift in how U S society views and validates marriage and romantic relationships But the shift would not have happened without an arguably more important but already forgotten shift four years earlier that saw unprecedented movement in public attitudes alongside record amounts of television representation of LGBTQ relationships Situated at this intersection of legislative attitudinal and representational change *A Perfect Union* presents analyses of popular programmes such as *Modern Family* *Grey's Anatomy* *The Good Wife* *Glee* *Desperate Housewives* and *House* in order to tackle crucial ethical questions regarding the impact of heterosexual knowledges on the rendering of same sex relationships as relatable and respectable portraits of heteronormativity that reproduce the masculine feminine binary monogamous coupledness and the raising of children Focusing on the connection between heteronormativity and government legitimacy Cory Albertson deftly examines television's privileging of certain forms of relationships over others shedding light on the reproduction of everyday power relations within LGBTQ relationships that hinge on issues of race sexuality class and gender An engaging study of media constructions of same sex relationships and the shaping of public expectations and attitudes *A Perfect Union* is a must read for scholars of sociology media and cultural studies and popular culture with interests in gender sexuality and the family

The History of Education Under Apartheid, 1948-1994 Peter Kallaway, 2002 Annotation This collection of 19 essays stems from two scholarly workshops held during 1998 and 1999 as part of a project initiated by the Centre for Education Policy Development The project's goal is to stimulate critical evaluation of the nature and direction of contemporary education policy discourse and practice in South Africa by examining education under the apartheid years Coverage includes

the origins construction and experience of apartheid education popular resistance and alternative education during the 1970s 80s and 90s firsthand accounts of the everyday lives practices and experiences of teachers and students new sources of traditional research in the history of education and the identities of historical actors and institutions Annotation c Book News Inc Portland OR booknews com Dance, Identity and Integration Congress on Research in Dance.
