Enterprise Architecture As Strategy Creating A Foundation For Business Execution:

Enterprise Architecture as Strategy Jeanne W. Ross, Peter Weill, David Robertson, 2006 Enterprise architecture defines a firm's needs for standardized tasks, job roles, systems, infrastructure, and data in core business processes. This book explains enterprise architecture's vital role in enabling or constraining the execution of business strategy. It provides frameworks, case examples, and more. A Systemic Perspective to Managing Complexity with Enterprise Architecture Saha,

Pallab, 2013-09-30 Organizational complexity is an unavoidable aspect of all businesses, even larger ones, which can hinder their ability to react to sudden or disruptive change. However, with the implementation of enterprise architecture (EA), businesses are able to provide their leaders with the resources needed to address any arising challenges. A Systemic Perspective to Managing Complexity with Enterprise Architecture highlights the current advances in utilizing enterprise architecture for managing organizational complexity. By demonstrating the value and usefulness of EA, this book serves as a reference for business leaders, managers, engineers, enterprise architects, and many others interested in new research and approaches to business complexity. Effects of IT on Enterprise Architecture, Governance, and Growth Cavalcanti, José Carlos, 2014-09-30 As technology continues to evolve in organizations, it is vital to understand the impact that these advances will have on different aspects of the business environment, as well as the opportunity for further improvement. Effects of IT on Enterprise Architecture, Governance, and Growth explores the influence of emerging technology on different viewpoints associated with contemporary enterprise architecture. Emphasizing an interdisciplinary approach to the comprehension of organizational structure and dynamics, this book is an inclusive reference source for enterprise analysts, business managers, and IT managers, as well as upper-level students interested in a new framework for understanding business enterprise in the new digital era.

Enterprise Architecture for Connected E-Government: Practices and Innovations Saha, Pallab, 2012-06-30 This book addresses the gap in current literature in terms of linking and understanding the relationship between e-government and government enterprise architecture. Provided by publisher. Practice-Driven Research on Enterprise Transformation Frank Harmsen, Frank Schalkwijk, Joseph Barjis, Sietse Overbeek, 2010-11-01 The PRET working conferences are set up as a one-day event in such a way that it attracts an audience from both industry and academia. PRET 2010 was a continuation of the PRET 2009 working conference, which was organized as the industrial track at the 2009 CAiSE conference. The PRET 2010 working conference was organized as part of the Enterprise Engineering Week and was co-located with PoEM 2010 and TEAR 2010 in Delft. The statement that modern-day enterprises are in a constant state of flux is in 2010 even more true than it was in 2009. The markets are in a state of confusion and seem to have no direction at all, as they are swinging back and forth depending on often contradictory signals and economic forecasts. As a consequence, enterprises, be they private businesses, government departments, or other organizations, are taking their measures. Restructuring, divesting, proving performance, and merging are among the usual transformation activities that enterprises conduct to provide answers to the ever-

challenging demands that are put on them. In addition to the tricky economic situation, developments like globalization, rapid technological advancement, aging, and the changing mindset of customers contribute to a situation in which nothing is certain anymore and in which change is the only constant. PRET approaches these developments and the impact they have on enterprises from a holistic enterprise engineering perspective. *Empowering Businesses With Collaborative Enterprise Architecture Frameworks* by Iyamu, Tiko, 2020-08-07.
