## **Early Mainland Southeast Asia From First Humans To Angkor:**

**Early Mainland Southeast Asia** Charles Higham, 2014 For the first time the complete cultural history of mainland Southeast Asia is covered in one volume

**Early Cultures of Mainland Southeast Asia** Charles Higham, 2002 The archaeology of the early cultures of mainland Southeast Asia has been transformed in the ten years since Charles Higham published the first major summary of the period from 10000 BC to the fall of the Kingdom of Angkor He has now written an entirely new book which takes into account a host of new discoveries The dynamic coastal hunter gatherers at Khok Phanom Di provide a startling image quite at variance with our earlier understanding of this period The origins of rice cultivation in the Yangzi Valley linked with the distribution of the languages provides a whole new view of the spread of farming communities At last the origins and dating of the Bronze Age are resolved and the social life from mines to settlements and on to the rituals of death can be followed New excavations at large Iron Age sites in Cambodia and Thailand now allow us to appreciate the vigour and dynamism of societies on the brink of the transition to the state A fresh appraisal of the available inscriptions has opened new vistas on the origins and development of the great kingdom of Angkor Professor Higham has integrated all these new findings into a fascinating account of Southeast Asia's past bringing a freshness and vigour to the period which can only provide for a fuller understanding of how this vital region has developed over the millennia into its present form

Ancient Southeast Asia John Norman Miksic, Goh Geok Yian, 2016-10-14 Ancient Southeast Asia provides readers with a much needed synthesis of the latest discoveries and research in the archaeology of the region presenting the evolution of complex societies in Southeast Asia from the protohistoric period beginning around 500BC to the arrival of British and Dutch colonists in 1600 Well illustrated throughout this comprehensive account explores the factors which established Southeast Asia as an area of unique cultural fusion Miksic and Goh explore how the local population exploited the abundant resources available developing maritime transport routes which resulted in economic and cultural wealth including some of the most elaborate art styles and monumental complexes ever constructed The book's broad geographical and temporal coverage including a chapter on the natural environment provides readers with the context needed to understand this staggeringly diverse region It utilizes French Dutch Chinese Malay Indonesian and Burmese sources and synthesizes interdisciplinary theoretical perspectives and data from archaeology history and art history Offering key opportunities for comparative research with other centres of early socio economic complexity Ancient Southeast Asia establishes the area's importance in world history

The Archaeology of Mainland Southeast Asia Charles Higham, 1991 This important new synthesis focuses on the social world of early mainland Southeast Asia

*Empire in Asia: A New Global History* Jack Fairey, Brian P. Farrell, 2018-06-28 Asia was the principle focus of empire builders from Alexander and Akbar to Chinggis Khan and Qianlong and yet until now there has been no attempt to provide a comprehensive history of empire in the region Empire in Asia addresses the need for a thorough survey of the topic This volume traces the evolution of a constellation of

competing empires in Asia from the 13th through to the 18th centuries Separate chapters will describe the history and characteristic features of imperial regimes in each major sub region of Asia from the Ottomans and Safavids in the West Romanovs in the North Mughals in the South the Mongols their successors in Inner Asia to the Ming and Qing Dynasties in the East The contributors address common questions in considering the various empires including How did imperial Asian states understand themselves and their place in the world How were these empires constructed and how did they attain such prominence To what extent did imperial repertoires of rule differ The two volumes of *Empire in Asia* offer a significant contribution to the theory and practice of empire when considered globally and comparatively and are essential reading for all students and scholars of global imperial and Asian history

**The Origins of Ancient Vietnam** Nam C. Kim, 2015

Urbanization and Religion in Ancient Central Mexico examines the ways in which urbanization and religion intersected in pre Columbian central Mexico It provides a materially informed history of religion and an archaeology of cities that considers religion as a generative force in societal change

**Water and Society from Ancient Times to the Present** Federica Sulas, Innocent Pikirayi, 2018-10-03 As water availability management and conservation become global challenges there is now wide consensus that historical knowledge can provide crucial information to address present crises offering unique opportunities to appreciate the solutions and mechanisms societies have developed over time to deal with water in all its forms from rainfall to groundwater This unique collection explores how ancient water systems relate to present ideas of resilience and sustainability and can inform future strategy Through an investigation of historic water management systems along with the responses to and impact of various water driven catastrophes contributors to this volume present tenable solutions for the long term use of water resources in different parts of the world The discussion is not limited to issues of the past seeking instead to address the resonance and legacy of water histories in the present and future *Water and Society from Ancient Times to the Present* speaks to an archaeological and non archaeological scholarly audience and will be a useful primary reference text for researchers and graduate students from a variety of disciplinary backgrounds including archaeology anthropology history ecology geography geology architecture and development studies

**Frontiers in the Study of Ancient Plant Remains**, 2023-11-16 In the last two decades plant biology has developed rapidly ranging from molecular genetics cell biology and physiology to ecology and evolutionary issues both for economic species and species unrelated to humans These topics have received intensive attention however there is still a large gap in the study of plant biology in prehistoric times especially those closely related to humans The identification of plant species in archaeological sites plays an important role in exploring the paleoenvironment the origin and spread of agriculture and the relationship between humans and nature In this research topic we welcome progress in all aspects of ancient plant fossil research especially phytoliths starches pollen and carbonized seeds from the mechanisms of plant fossil formation to their phytosystematics and the associated paleoecology and paleoenvironment

*The Oxford Handbook of Early Southeast Asia*

Charles Higham, Nam C. Kim, 2022 This handbook collects expert surveys of the prehistory of Southeast Asia a two millennial span that began with the arrival of now extinct humans and ended with the great civilization of Angkor 9th to 15th century

*The Civilization of Angkor* Charles Higham, 2001 The Civilization of Angkor is remarkable and unique in that it delves into the prehistoric roots of the civilization Higham is THE international authority on southeast Asian archaeology and presents an up to date and provocative synthesis of Angkor Brian Fagan author of Floods Famines and Emperors El Nino and the Fate of Civilizations and co editor of The Oxford Companion to Archaeology In blending archaeological and documentary data to chronicle the rise of this important Southeast Asian state Higham s rich history of Angkor effectively refutes traditional models of state development in the Mekong region and offers insights regarding the nature of Angkor and the processes that led to its emergence Miriam Stark Associate Professor of Anthropology University of Hawai i and editor of The Archaeology of Social Boundaries

**The Archaeology of Mainland Southeast Asia** Charles Higham, 1989 **World Poverty: The Roots of Global Inequality and the Modern World System** Harold R. Kerbo, 2006 Provides an introduction to modern world system theory and its attempts to explain world poverty and inequality This book contains an overview of poverty in Africa Latin America and Asia It tells why some countries in the world mostly in Asia have become richer and reduced the ranks of their poor through ties with the global economy Southeast Asia Keat Gin Ooi, 2004 Contains over eight hundred alphabetically arranged entries that provide information about topics related to the historical development and global influence of Southeast Asia covering politics war religion socioeconomics ethnohistory geography and folklore *Damrong wichākan* , 2014 Compilation of academic articles on archaeology *The Dry Areas in Southeast Asia* Hayao Fukui, 1999
