Internet Lexicography Annette Klossa-Kückelhaus, 2024-12-02 The Internet has become the central publication platform for dictionaries This profound change in the dictionary landscape gives rise to a whole range of new questions for lexicographic practice and dictionary research This volume provides for the first time an introduction to the central fields of work in Internet lexicography and presents the current state of scientific research and lexicographic practice The chapters cover key aspects of dictionary creation such as the technical framework

data modeling and lexicographic process linking dictionary content access and navigation structures automatic extraction of lexicographic information user participation and research on dictionary use The aim of this volume is to provide students and teachers at universities with an introductory and easy to read overview on Internet lexicography thus anchoring this important and innovative field of research and practice in university teaching All chapters convey the basic concepts and methods in a comprehensible way and are enriched by references to further and more in depth reading *Studies on Multilingual Lexicography* María José Domínguez Vázquez, Mónica Mirazo Balsa, Carlos Valcárcel Riveiro, 2019-12-16 Given the new technological advances and their influence and imprint in the design and development of dictionaries and lexicographic resources it seems important to put together a series of publications that address this new situation dealing in particular with multilingual and electronic lexicography in an increasingly digital multilingual and multicultural society This is the main objective of this volume which is structured in two central aspects In the first of them the concept of multilingual lexicography is discussed in regard to the influence that the Internet and the application of digital technologies have exercised and continue to exercise both in the conception and design of dictionaries and new lexicographic application tools as well as the emergence of new types of users and forms of consultation The role of the dictionary must necessarily be related to social development and changes In the second thematic section different dictionaries and resources that focus on a multilingual and electronic approach to the linguistic data for their lexicographical treatment and consultation are presented

A Guide to Practical Online Lexicography Pedro A. Fuertes-Olivera, 2025-04-28 A Guide to Practical Online Lexicography provides a step by step course on digital lexicography discussing state of the art theoretical lexicography and offering a guide to practical lexicography with a focus on monolingual online dictionaries Dictionaries today need to be designed and made for online environments use up to date technologies in all aspects of lexicography and have adequate business models in place for financing them This book Covers lexicographic data and categories of existing online dictionaries and shows how to plan analyse and store data Discusses the relationship between technology dictionary users and dictionary makers lexicographic developments and economic costs Provides an in depth case study of designing and making the Diccionario Digital del Espa ol DIDES an online dictionary of Spanish edited by the author Includes further reading recommendations practical activities and questions for discussion at the end of each chapter Drawing on materials developed by the author from his experience of over 20 years of lecturing in universities and institutions globally this is a practical go to guide to online lexicography for students of lexicography e lexicographers and researchers *Theory and Practice of Specialised Online Dictionaries* Pedro A. Fuertes-Olivera, Sven Tarp, 2014-09-23 This book is the first comprehensive monograph on the Function Theory of Lexicography which originated at the Aarhus School of Business Aarhus University Function Theory considers dictionaries to be tools that are constructed for assisting specific users with punctual needs in specific usage situations e g communicative oriented situations and cognitive oriented situations The book s main focus is on defending the

independent academic status of lexicography and its corollary The process of designing compiling and updating specialised online dictionaries needs a theoretical framework that addresses general and specific aspects The former are common to all types of information tools the latter are mainly dependent on the media for which the information tool is constructed and their specific target users This books offers both aspects and moves from the highest level of abstraction to very detailed aspects of lexicographic work e g how to convert an originally conceived polyfunctional online dictionary into several monofunctional usage based ones The book illustrates that the theory and the methodology currently used by advocates of the Function Theory of Lexicography offers better results than other approaches and therefore makes its case for proposing the Function Theory for terminological terminographical work
